In order to qualify for this recognition, a tree must fit one or more of the following criteria and be in relatively good condition. Please check all that apply below:

- Historically Significant** - The tree has value as part of the development or heritage of the community, it is located at the site of a historical event; or it is identified with a person or group who significantly contributed to the development of the community.
- Botanical Significance** - The tree is the largest or most outstanding of its species.
- Age** - The oldest known tree of its species or tree planted by pioneers and other early settlers are most significant.
- Size** - A tree that is the largest tree of its species in the nation.

ARE YOU NOMINATING:

SINGLE TREE or GROUP OF TREES

(For "Group" nominations disregard individual tree information and instead include a map with each species labeled)
