GREAT SALT LAKE TECHNICAL TEAM GRANT PROGRAM
FY 2028 REQUEST FOR GRANT APPLICATIONS
DISCLOSURE OF STATE FUNDING

House Bill 335 (2024 Utah Legislative Session) mandates the disclosure of all state funding for competitive grants.

The bill states,

“63G-6b-401. Competitive Grant Requirements.

... (b) As part of the competitive application process, the administering agency shall require that each applicant disclose all other state funding the applicant receives.”

Pursuant to this law, please use this form to disclose any state funding that you or any other PIs on the GSL Research Grants proposal will receive for the timeframe of this grant (FY28 or FY28/29). If you are part of a state agency or public institution (e.g. a division within DNR or a state university), you do NOT need to include any matching funding (e.g. salary) your organization offers on this proposal or other projects, unless those funds were received via a non-competitive/direct grant award from the State of Utah. Feel free to attach additional documents if more space is needed.

Project Title _____
